

PrintLab International Ltd is a UK based company that develops 3D printing curriculum for schools, libraries and other educational organisations. Our flagship product is PrintLab Classroom - an online platform of lesson plans and learning resources that teach students how to use 3D printing to address global challenges. Our vision is to modernise education worldwide and provide young people with industry-relevant skills to flourish in the future.

As part of a recent collaboration with Autodesk, make:able was born. Make:able is an exciting competition, where participants go through a creative journey to design and make a product that improves the life of someone who struggles with mobility in their hands.

We are therefore seeking your consent to process and use information and media in relation to yourself, such as videos/images where you are featured. Please tick the box below, before filling in and signing the form details.

I consent to personal information, images and/or video footage of myself to be used by PrintLab International Ltd and its associated partner companies (as stated on the make:able website) for educational and promotional purposes on websites, social media and other related methods of public communication.

I, _____ (print full name) have read this form and hereby consent to the above ticked activities.

Signed: _____

Date: _____
